

IN PROSPEROUS IDAHO

Gold and Silver Mines at Banner and in Vicinity of Idaho City.

WORK AT THE RICH ELMIRA

Erection of New Mills—Activity at the Boulder Plant on Elk Creek—Some Rich Strikes.

Special to the Standard.

IDAHO CITY, Idaho, Feb. 10.—The Elmira mill at Banner is still running, turning out the usual amount of bullion. Since the road closed, about the middle of December, 18 bars of bullion, weighing 2,000 ounces each, have been turned out. The crosscut from the Banner tunnel to tap the Panamint mine at the depth of about 200 feet, is progressing finely.

Thomas Barry, sr., will erect a 10-stamp gold mill on the Golden Era mine on Summit flat as soon as the machinery can be taken in.

The lessees of the King mine in the same district are still extracting good ore, which will be worked in the Goodwin mill as soon as the snow is gone.

Sam Beck has returned from the Cour d'Alene country and gone up to Summit Flat to assist his brothers in running a tunnel to cut at good depth a very promising gold mine.

The Boulder mill, on Elk creek, is still running day and night, yielding handsome profits to the owners. It is only a five-stamp, but is paying so handsomely that the owners are now only waiting for the snow to disappear so that they can increase it to a 10 or 20-stamp.

Keane & Hall are still at work driving a tunnel to develop at depth the Gem of the Mountain gold mine, between Idaho City and Centerville.

All of the machinery for the sulphuret mill has arrived on the ground near Quartzburg and mechanics are at work putting it in place. Ore treatment will commence in about two weeks. Many of the gold mines in that section carry large quantities of rich sulphurets, and if the works now going up prove successful, an impetus will be given to mining on the west side of Boise basin.

Libby & Chapman have their Chickahominy tunnel in 475 feet, and expect to reach the chate of gold ore in 25 more.

Capt. J. A. Edie, who has been at the mine found by the Birch brothers, west of Grimes' pass last fall, for several months, reports that work is progressing as well as could be expected in the tunnel. Twenty-five feet will have to be run yet before the vein is reached. He says the ledge on the surface is 12 to 14 feet wide, with a 5-foot pay streak. The ore is free gold and the captain believes that they will develop a splendid mine.

Ed Smith is putting in the winter developing his galea mine on the summit between Placerette and Garden valley.

John Henry is still running on the Hurdy Flat claim, in Beaver district. His tunnel is following the vein on which a claim of exceedingly rich silver ore was reached several weeks ago. He has not yet crossed the chute. The further he goes the better is the ore. He surely has a great silver mine.

As the snow is settling rapidly—melting from the bottom—owners of placer claims expect to get to work much earlier than usual this year. Some of them may commence panning by the first of March.

S. C. Bowen, now in New York, has great hopes of disposing of the Grimes' creek bedrock flume property, owned by him and S. K. Goldtrap. The ground consists of 240-acre claims in Grimes and Granite creeks, and should they pass into the hands of a company able to go ahead and put in the flume, the country would be greatly benefited by the operations, as the enterprise, properly handled, will pay big.

A few good dividends would induce capitalists to invest in flumes in More and Elk creeks, cause more attention to be paid to this section of the state, and create a market for the hundreds of rich gold and silver mines now lying comparatively idle. Efforts have been made at various times during the past 25 years to get capital interested in the enterprise of fluming More and Elk creeks, but each met with failure. Some day it will be done and the company carrying on the work will reap rich rewards. A portion of the creek beds were worked by the most primitive methods during the early 60's and a great deal of virgin ground remains—ground that would pay big to wash now by the "shoveling in" process, but which could not be made to pay then. Since those exciting times the beds of the creeks, which are from 600 to 1,000 feet wide, have been covered to the depth of several feet by tailing from the hydraulic claims on the bars and hillsides. Of course the ground can now only be reached and worked by the bedrock flume method.

THE NEW YORK MARKET.

AN AROUSED COMMUNITY.

The Commotion Caused by a Most Remarkable Incident, Every Word of Which is Bound to Be True.

From the Toledo Blade.

A few days since we published one of the most wonderful statements that has ever appeared in print. It was made by Miss Bertha Shorr, a young lady of Sidney, Ohio, who has passed through an experience probably never before known in history. It was so unusual, so remarkable, that it was complete investigation of its truth or falsity became an absolute necessity. That investigation has been made, and the surprising truths are given herewith:

A representative of this paper made a personal call upon some of the relatives of the young lady, and also upon many prominent professional people in Sidney. What they said is simply remarkable.

Dr. J. G. Geyer said: "When I was first called to see Miss Shorr I saw at once that her case was a critical one, and I called in consultation several of our best physicians. We were unable to cure her. The pleural sack filled with water and forced the lungs up out of place. Then terrible inflammation set in and we battled with it long and hard, but were unable to help her. Nobody thought she would ever recover, but she did, and I have recently examined her lungs and found them to be in a healthy condition."

C. F. Hickox, a prominent merchant of Sidney, located at the corner of Ohio and Poplar streets, stated that he knew the "Shorr" family well and that during the time Miss Bertha was so sick, his wife was a frequent caller at their home. The poor girl was in a most pitiable condition, and his wife prevailed upon him at one time to go with her and take a look at the sufferer. "I will never forget the sight," he said, "as long as I live. I can best describe her appearance by saying that she reminded me of the pictures we used to see during the war, of our poor, half-starved soldiers, with that deathly look about the face, and with their long, bony fingers. It is simply wonderful that she ever walked again. I will remember the ride she took about the court house square. We all thought, as we watched her, that it was her last ride on this earth, but she rallied, and came out all right, and is as well as ever."

Rev. A. H. Minneman, pastor of the Western Avenue Lutheran church, said he knew Miss Shorr's family very well, and that they attended his church. He well remembered the terrible suffering that Miss Bertha endured for many months. Her trouble was consumption, and two of the best physicians of the town had told him she was incurable. He considered her recovery little short of a miracle, but she has fully recovered, and is now in blooming health.

Dr. H. E. Beche said: "Yes, I treated Miss Bertha Shorr for a long time, and her complete recovery is one of the most remarkable things I have seen during my long experience as a physician. She was positively nothing but skin and bones, a mere skeleton, and we were compelled to carry her in sheets. Her lungs were completely filled, and I was positive that she would die. But she has recovered, as she has told you, and I consider it simply marvelous."

G. Steiny, brother-in-law of Miss Shorr, said that his sister-in-law had been confined to her bed for more than 18 months. "Recovery was the last thing we thought of, and we only sought to make her last hours as pleasant as possible. I have never known any one to be so sick as my sister-in-law and recover. Physicians did not do it, our most careful attention did not do it, but Dr. Acker's English Remedy for Consumption cured her, and she is now the picture of health. It seems almost too wonderful to believe, and I should not be surprised at any one's doubting it, but it is every word true, and I am willing to cough up its truth at any time."

Dr. A. W. Reddish said that he was in consultation with Drs. Beche and Geyer, and that Miss Shorr had consumption, beyond the shadow of a doubt. There were cavities in her lungs and abscesses would form and break. He did not see how she could possibly live, but she has fully recovered, and is strong and well. "The case baffled us all, and I have many times referred to her cure when in consultation with other physicians."

A daughter of the late Senator Robertson said that herself and several girl friends were doing missionary work and learned of Miss Shorr's sickness. They went at once to her home and found the family completely worn out from watching and care. They at once sought to assist, never for a moment thinking she could recover. They watched over her, took her delicacies, and when the change for the better took place she recovered rapidly. In conclusion she said: "I think it is one of the most wonderful cures ever recorded."

H. C. Ayers, the popular druggist of Sidney, said: "I sold the first bottle of the remedy to the parents of Miss Shorr, and it is simply wonderful what it did for her. Dr. Acker's English Remedy is wonderfully popular in this town and deservedly so. No such recovery from almost certain death has ever come to my notice. It is almost past belief."

The above are most wonderful statements but they prove the marvelous nature of this case beyond question. They also show how important such an experience may be in the case of others, perhaps your own, who may be traveling the same dangerous road, but who can yet be saved if you will but consider and act in time.

Bids will be received until Monday, March 7, 1892, for the sale of the property known as the Central school property. Terms, one-third cash, the balance in three and six months. Plat can be seen at the office of Messrs. Wilson & Gillie. The right is reserved to reject any or all bids. By order of the board of trustees of school district No. 1. E. M. Trask, chairman; S. B. Rice, clerk. Butte, Jan. 7, 1892.

There is no bit cigar to be compared with the Irwin.

NOTICE TO CO-OWNERS.—To George W. Penn, Edwin S. Penn, John Claybaugh, J. K. Lake, Edward Dunkel, — Thomas, your heirs, executor, administrators, or assigns: You are hereby notified that Claus Oldhaber, your co-owner, has, in accordance with the provisions of section 2324, Revised Statutes of the United States, expended in labor and improvements upon the Crescent quartz lode mining claim, located at the head of the West fork of Oleson's gulch, about 10 miles from Anaconda, in Deer Lodge county, Montana, for the year 1891, one hundred (\$100) dollars, representing work, and you, George W. Penn, Edwin S. Penn, John Claybaugh, J. K. Lake, Edwin Dunkel, — Thomas, repudiated owners, and all other persons whom it may concern, are hereby notified that if within 90 days after this notice by publication you fail to pay to the undersigned your respective portions of said sum according to your real interest, if any, your said interest, if any, in said claim will become the property of the undersigned, pursuant to law.

CLAUS OLDHABER, Dated Anaconda, Mont., Feb. 1, 1892. First publication, Feb. 2, 1892.

NOTICE TO CO-OWNERS.—To George W. Penn, Edwin S. Penn, John Claybaugh, J. K. Lake, Edward Dunkel, — Thomas, your heirs, executor, administrators, or assigns: You are hereby notified that I have expended one hundred dollars in labor and improvements upon the Golden Eagle quartz lode mining claim (said Golden Eagle quartz lode being in the Flint Creek mining district, in the county of Deer Lodge, state of Montana, and filed for record in the office of the county recorder of said Deer Lodge county, state of Montana, Aug. 1, 1887, and recorded in Book "Q" of Lode Location, on page 93, records of Deer Lodge county, Montana, to which for a more definite description reference is hereby made; in order to hold said premises under the provisions of section 2324, revised statutes of the United States, being the amount required to hold the same for the year ending Dec. 31, 1891. And if within ninety days from the service of this notice (or within ninety days after notice by publication, you fail or refuse to contribute your proportion of such expenditure as co-owner, your interest in said claim will become the property of the subscriber, under said section 2324.

JOHN BROWN, Dated Anaconda, Mont., Jan. 30, 1892. First publication Feb. 1, 1892.
